

Product data sheet:

SIGA-Sicrall®

Updated on: 12.04.2011

Distributor: SIGA

Type of application: durably airtight joints on overlaps of vapour control layers and butt joints of wood-based panels Sicrall 170: Sealing of injection holes.

Instructions for application: see manual

Construction: reinforced speciality paper, splash-water resistant due to PE coating, with SIGA high-performance adhesive

Packaging unit: Sicrall 60 10 rolls / box
Sicrall 170 1 roll / box

Characteristics:

			Standards	Units	Values
Dimensions		Length / width Length / width	Sicrall 60 Sicrall 170	m m	40 / 0.06 40 / 0.17
Temperature resistance				°C	- 40 °C to + 100 °C
Processing temperature				°C	from - 10 °C
Diffusion-equivalent air layer thickness s_d			EN 1931	m	8
Ageing resistance			high permanent adhesive strength, non-drying and non-embrittling since without caoutchouc, resin or solvent, can reliably and durably follow structural movements		
Suitability for storage			unlimited
